

ITAP User Manual

ITAP Admin

As an ITAP Admin you set up the org — people, teams, and assignments — and keep it running: approvals, handoffs, and tracking what's overdue.

ITAP - Signed in as Priya (ITAP Admin) User Manual Switch person

Workforce Overview

Welcome back, Priya.

What's in Workforce Overview

- **Associates** — every Associate, one row each: current team, a tenure bar, a status filter, and a hidden score behind an eye icon. Click a name to open their full portfolio.
 - **Org Structure** — the reporting tree of Managers and Functional Owners.
 - **Onboard & Assign** — add a new Associate or Manager, then connect an Associate to a Manager.
 - **Setup** — one-off configuration: Skills, Teams, CCA activities.
 - **Approvals** — act on Manager-raised Extension/Closure requests, and reopen a frozen Goal Setting or Review Score.
 - **Rotation Plans** — build and preview a rotation curve across several Associates at once.
 - **Bulk Setup** — upload a Setup Workbook (.xlsx) to onboard many people and assignments in one pass.
 - **Overdue** — Associates with an overdue goal-setting or episode closure.
 - **Manager Handoff** — reassign a departing Manager's whole team to someone else, in one action.
 - **Consolidated Scores** — an Associate's rolled-up score across their closed assignments.
-

Step-by-step: common tasks

Onboard a new hire and assign them to a Manager

1. Open **Onboard & Assign**.
2. Under ① **Onboard people**, type the person's name (and email, if you have it) and click **Create Associate** — or **Create Manager**, if you're adding a manager instead.
3. Under ② **Create an assignment**, pick the Associate and Manager you just created (or any existing pair), set a start date, and click **Create Assignment**.
4. Open **Associates** — the new Associate now shows their Manager under "Current team".

The screenshot shows the 'Workforce Overview' page. At the top, it says 'ITAP - Signed in as Priya (ITAP Admin)' with links for 'User Manual' and 'Switch person'. Below the title 'Workforce Overview', it says 'Welcome back, Priya.' and a navigation bar with links: 'Associates', 'Org Structure', 'Onboard & Assign', 'Setup', 'Approvals', 'Rotation Plans', 'Bulk Setup', 'Overdue', 'Manager Handoff', and 'Consolidated Scores'. A note states: 'A two-step journey: bring people into the system, then connect them.' The page is divided into two main sections. The first section, '① Onboard people', has a sub-note: 'Email is optional today, but is the field a future SSO integration would match against -- worth filling in now.' It contains two side-by-side forms. The left form is for 'New Associate name' with an 'Email (optional)' field and a 'Create Associate' button. The right form is for 'New Manager name' with an 'Email (optional)' field and a 'Create Manager' button. The second section, '② Create an assignment', contains a form with 'Associate' and 'Manager' dropdown menus (showing 'Casey (Associate)' and 'Alex (Line Manager)' respectively), a 'Start date' field (showing '2026/09/13'), a checkbox for 'Set an end date now', and a 'Create Assignment' button.

What this screen looks like

Email is optional today, but it's the field a future SSO or AD login would match against — worth filling in now.

Bring a whole team in at once with Bulk Setup

1. Open **Bulk Setup** and click **Download template (.xlsx)** for a blank workbook in the expected layout — or use the sign-in page's **Download demo dataset** first, just to see a filled-in example.
2. Fill in the workbook: Admins, Managers, Associates, Assignments, Skills, and CCA Activities each get their own sheet.
3. Back in **Bulk Setup**, upload the filled-in workbook (and a `photos.zip` too, if you have headshots).
4. Review the row counts and the **Preview parsed rows** tables — nothing is written yet.
5. Click **Confirm and import**.

The screenshot shows the 'Workforce Overview' page in the ITAP system. At the top, it says '(TAP - Signed in as Priya (ITAP Admin))' and has buttons for 'User Manual' and 'Switch person'. The main heading is 'Workforce Overview' with a sub-header 'Welcome back, Priya.' Below this is a navigation bar with links: 'Associates', 'Org Structure', 'Onboard & Assign', 'Setup', 'Approvals', 'Rotation Plans', 'Bulk Setup' (which is highlighted), 'Overdue', 'Manager Handoff', and 'Consolidated Scores'. A paragraph explains the purpose of the Bulk Setup: 'Upload a Setup Workbook to create or UPDATE Admins, Managers (+ Teams), Associates (+ profile/skills/interests), Skills, CCA Activities, and Assignments (open or already-finished/scored) — in one pass. Re-uploading the same workbook is always safe: each row is matched by its natural key (email for people; name for catalogs; associate+manager+kind+start_date for one assignment start) and its fields are UPDATED to whatever the file now says — nothing is ever duplicated. Nothing is written until you review the preview and click Confirm.' Below this are two main sections. The first is 'Download template (.xlsx)' with a button. The second is 'Past uploads (audit log)' with a button. The third section is 'Upload filled-in workbook' with an 'Upload' button and a note '200MB per file • XLSX'. The fourth section is 'Upload photos.zip (optional — matched by email or photo_filename)' with an 'Upload' button and a note '200MB per file • ZIP'.

What this screen looks like

Re-uploading the same workbook later is always safe: each row is matched by its natural key (email for people, name for catalogs) and updated in place — nothing is ever duplicated.

Work the Approvals queue

1. Open **Approvals**.
2. Under **Pending requests**, read each Manager's Extension or Closure request and click **Approve** or **Deny**.
3. Need to fix a mistake after the fact? Use the **reopen a frozen Goal Setting or Review Score** section below the queue — pick the Assignment and reopen either one.

What this screen looks like

Approving a Closure request is what actually applies the assignment's frozen Review Score and closes it out.

Hand off a departing Manager's whole team

1. Open **Manager Handoff**.
2. Pick the **Departing manager** and the **New manager for their team**.
3. Add a note if useful, then click **Reassign their whole team**.

The screenshot shows the ITAP Manager Handoff interface. At the top, it says "ITAP - Signed in as Priya (ITAP Admin)" and has buttons for "User Manual" and "Switch person". The main heading is "Workforce Overview". Below this is a navigation bar with links: "Associates", "Org Structure", "Onboard & Assign", "Setup", "Approvals", "Rotation Plans", "Bulk Setup", "Overdue", "Manager Handoff", and "Consolidated Scores". A sub-header reads: "For when a Manager leaves: close every one of their active Assignments (no score — this isn't a performance assessment) and hand each Associate to a new Manager in one action." The main form contains three sections: "Departing manager" with a dropdown menu showing "Alex (Line Manager)", "New manager for their team" with a dropdown menu showing "Bailey (Line Manager)", and "Notes (optional)" with a text area. At the bottom of the form is a button labeled "Reassign their whole team".

What this screen looks like

This closes every one of the departing Manager's active Assignments with no score — it's a handoff, not a performance assessment — and opens a fresh Assignment under the new Manager for each Associate.
