

ITAP User Manual

Line Manager

As a Line Manager, My Team is where you track the Associates tasked to you, agree their goals, and score their episodes once they're done.

What's in My Team

- **Current** tab — every Associate currently tasked to you (Primary, Secondary, or CCA). Click a name to open their page.
 - **Rolled Off** tab — read-only history of Associates who've since moved to a different manager.
 - On an Associate's own page: **Profile** (read-only), **Goals** (set/freeze goal-setting), and **Review & Scoring** (score a completed episode).
-

Step-by-step: common tasks

Agree and freeze an Associate's goals

1. On **My Team** → **Current**, click the Associate's name.
2. Open the **Goals** tab.
3. Type or edit the agreed goal-setting text.
4. Once you and the Associate agree, click **Agree & Freeze**.

Associate

Profile Goals Review & Scoring

The manager and associate agree on goals verbally, offline; key the agreed goals in here, then click **Agree & Freeze** — once frozen, neither side can edit them without an admin reopening the window.

Goals (agreed with the associate)

Scoring criteria (semicolon-separated)
Communication; Technical Skill; Ownership

Save Agree & Freeze

What this screen looks like

Freezing locks the text — the Associate can no longer edit their own copy after this. Only an Admin can reopen it (via Approvals) if it needs correcting.

Score a finished episode

1. Open the Associate's page and go to **Review & Scoring**.
2. If goals haven't been frozen yet, freeze them on the **Goals** tab first — there's nothing to score against until then.
3. Fill in the review form and click **Submit score**.

The screenshot shows the ITAP interface for reviewing an Associate's performance. At the top, it says 'ITAP - Signed in as Alex (Line Manager)' and has buttons for 'User Manual' and 'Switch person'. Below this is a 'Back to My Team' button and a profile card for 'Casey', an Associate. The 'Review & Scoring' tab is active, showing a message: 'Agree & Freeze the goals on the Goals tab first — there's nothing to score against yet.' Below this is a 'Withdraw' section with a text area for 'Reason (optional)' and a 'Withdraw this engagement' button. At the bottom is a 'Request Extension or Closure' section with a 'New end date' field (showing 2026/04/01) and a 'Notes (optional)' field.

What this screen looks like

A score you give here is visible to you and rolls into the Associate's own aggregate — it is never shown as a number to any other Manager.

Request an extension or early closure

1. Open the Associate's page.
2. Scroll to **Request Extension or Closure**.
3. Fill in the relevant form and click **Request Extension** or **Request Closure**.
4. Wait for your Admin to act on it in their Approvals queue — you'll see the request listed under **Requests on this engagement** until it's resolved.
